

Flutter assessment of Thouraya Zemzemi

I worked with Flutter framework in this assessment.

I used two plugins :

1. Flutter_share ^0.6.5+4: which is a flutter plugin that provides a simple way to share a message a link or a local file
2. intl^0.17.0 : deal with internationalized/localized messages, date and number formatting and parsing, bi-directional text, and other internationalization issues.

Storyline done : 1, 2,4,5,6
